EXPERIENCE

Warbyte Studios

Senior Product Manager & Game Designer

Istanbul, Turkey
March 2026 – Present

- Lead game design on hybrid-casual mobile titles from concept to soft-launch
- Design level progression, game economy and balance systems calibrated against CPI and retention benchmarks
- Write Game Design Documents (GDDs) and pitch original game concepts to publishers
- Collaborate with developers, artists and QA to refine core gameplay loops and onboarding flow

Holago Games

Senior Product Manager & Game Designer

Istanbul, Turkey
March 2025 – March 2026

- Led product management for hybrid-casual game titles from concept to launch
- Designed level progression, game economy and balance systems for multiple titles
- Developed hybrid-casual game concepts and GDDs for publisher pitches
- Conducted QA testing and iterated on gameplay based on KPI feedback

Omicron Games

Senior Product Manager & Game Designer

Istanbul, Turkey
October 2023 – February 2025

- Owned product lifecycle for hyper-casual and midcore mobile game projects
- Designed and iterated on level design, game economy and balance mechanics
- Generated and pitched hyper-casual/midcore game concepts to publishers
- Built and maintained the product roadmap for a title that reached launch
- Managed QA pipelines and coordinated cross-functional feedback loops

Fiber Games

Game Designer

Istanbul, Turkey
January 2022 – January 2023

- Ideated and documented hyper-casual game concepts resulting in multiple prototypes
- Collaborated on product management tasks including roadmap planning
- Designed level layouts, game economy systems and balance configurations
- Performed QA testing and reported bugs to the development team

Fabrika Games

Game Designer

Istanbul, Turkey
June 2021 – January 2022

- Generated hyper-casual game concepts evaluated for CPI and retention potential
